

EFS CarrierControl for Fleet Managers

Put the power of EFS in your hand

Manage time-sensitive employee or contractor card needs anytime and anywhere from your mobile device with the ***EFS CarrierControl*** mobile app. This convenient, secure mobile app allows you in real time to:

- Quickly authorize MoneyCodes® for checks
- Track MoneyCode transactions
- Inactivate, activate or put a card on hold instantly
- Override EFS Card* limits
- Load cash to cards

Download the app from the Apple App Store or Google Play. While the app is free for the public to download, users must be a current EFS customer with a valid and active eManager User ID and password in order to use this app.

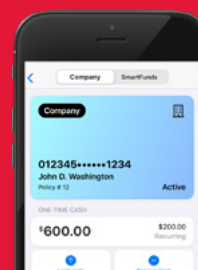

NOTE: This mobile application should not be used when behind the wheel. Please only use when safely parked and not while driving.
